

Don't Just Treat Your Water
Maximize it

The Hague Series 96 Maximizer® is a patented, comprehensive water treatment system designed to provide your home with soft, clean water and money saving opportunities.

Maximizer® (Series 96) Specifications

Max Compensated Hardness - gpg (g/L)	90 (1.5)
Maximum Ferrous Iron Reduction - ppm	10
Minimum pH - standard units	7
Filtration Nominal Rating - microns	20
Media Amount - cu.ft. (L) and type	1.0 (28.3) Fine Mesh Resin
Water Pressure - min-max (psi/bar)	20-120 (1.4/8.3)
Salt Storage - lb (kg)	200 (91)
Height - in. (cm)	38 (97)
Footprint - in. (cm)	15 x 30 (38 x 76)
Plumbing Connections	3/4" or 1" male (MNPT)

OTHER UNITS AVAILABLE

96MMP1 - Addition of Sulfurstat for added sulfur reduction
 96MMB1 - Addition of Chlorostat for added chlorine reduction

1. BUILT-IN BYPASS

Every WaterMax® comes equipped with a built-in bypass valve and test port for easy use and identification.

2. ULTRA-FIL

Whole-House, self cleaning dirt and sediment filter that replaces the need to change filters or cartridges.

3. FINE MESH RESIN

Vacuum packed Fine Mesh Resin allows for quicker ion exchange, which equals less salt, time, & water usage versus standard mesh resin.

4. BACTERIOSTAT

Listed as a bacteriostat by the United States Environmental Protection Agency, Bacteriostat protects the media by stopping bacteria from reproducing.

5. SAFETY SHUT-OFF

The safety shut-off system is a backup feature that can protect your investment in case of a system failure.

6. GRID PLATE

The grid plate will protect the air check valve and help insure a consistent brine concentration.
